These prompts are available on the GPT Store for anyone to use. You must have a GPT Plus subscription activated on your OpenAI Account to use the prompts.

Indie Dev - App Developing and Marketing Tool:

<https://chat.openai.com/g/g-JU7HxOGSn-indie-dev-app-building-and-marketing-tool>

Indie Dev is a 'Super Prompt' that uses multiple sub-prompts that act as Programmer, Designer, and Marketer. The sub-prompts expand on user input and help categorize the output. It recommends a tech stack and generates an app icon and logo image, social media marketing content, SEO/ASO suggested keywords, and main page starter code. The user inputs an App Idea and Operating System, and Indie Dev creates everything you need to get started from just one sentence.

TasteBuddy - Generates a Recipe From Any Food Photo:

<https://chat.openai.com/g/g-Eo8OTNsAb-tastebuddy>

Uses GPT-Vision technology to interpret images of food into recipes. User attaches a photo, and the prompt will analyze all food content and respond with a dish title, nutritional content, ingredients, and recipe.

Don, Master Machinist - Precision Aerospace Machining and Engineering. Expert in CNC Mills and Lathes, G code, and Machine Shop Math

<https://chat.openai.com/g/g-iIDX3YiiP-don-master-machinist>

Ask Don for advice on all things machining including CNC Programming, Mechanical Engineering and Metallurgy. This prompt draws from a database of CNC G-Code and M-Code, and other knowledge charts. Useful for machine shop math and methods.

Node Dev - For developers using Node.js with React, React Native, JavaScript, TypeScript:

<https://chat.openai.com/g/g-dqCGzI4bh-node-dev>

This prompt is tuned to help users write code specifically for Node.js. It uses step-by-step methodology to help generate proper software architecture. Also helps with debugging and testing methods, writing comments, and generating complete code files. Uses proper techniques for programmers to write clean code.

Burly, the Vagabond - Surfer, Solo Traveler, and Van Life Expert:

<https://chat.openai.com/g/g-j7N3k8TmH-burly-the-vagabond>

Ask Burly for advice on camping, travel tips, and budgeting for life on the road. Returns detailed written advice with a surfer accent and personality. A roleplay chatbot that also gives useful information

Chef Greenleaf - Vegan Chef: <https://flowgpt.com/p/chef-greenleaf-1>

🏆 3rd place in Prompt Hackathon for *Best Dataset Prompt, November 2023*. Roleplays as a Vegan Chef that will generate gourmet recipes, beverage pairings, and 'veganize' any dish. Uses a dataset of recipes and preparation methods. Ensures all recipes are fully vegan for even the strictest diets.

Other Prompts

You can check out some more of my prompts, and some written by others here:

GitHub Repository - <https://github.com/JeremiahDMoore/llm-prompts>

Created a chatbot app for iOS and Android for relationship and love advice. User profile specific relationship coaching that also uses Myers-Briggs Personality Test to fine tune advice. Uses 'Super Prompt', 'Step-by-step' and 'Sliding Window' prompt methods. Also image prompting for App Icon generation.
